CAVE (CAVE OF THE WINDS)

According to the composer, *Cave* was written with the interest of merging wind ensemble performance with theatricality. Like exploring the depths of a cave, the music develops with "...a classic buildup over a drum ostinato, where the winds ride in 4/4 time over a 3/4 beat like a human pulse."

> *From the prose poem by the composer, "The rock walls ring to one unchanging pulse, upon which all the Cave dwellers build their spontaneous symphonies."*
